

## Mustafa Daher, PMP

 Dahermustafa01@outlook.com |  647-530-9334

### Profile Summary

Results-driven Civil Engineer & Certified PMP® currently working as a Senior Construction Inspector at the Toronto Transit Commission (TTC). Bringing 10+ years of multidisciplinary experience in construction project management, inspection, and digital process optimization. Combining strong engineering foundations with hands-on experience in software systems, automation tools, and data-driven project tracking. Seeking to leverage technical and analytical skills toward roles in Construction Technology, Project Systems, or IT/Software Coordination.

### Core Skills

Project Coordination & Inspection (Infrastructure / Transit / Civic Projects)  
MS Project | Primavera P6 | Dynamics 365 | Power Apps | AutoCAD | Revit  
SQL | Python | JavaScript | PHP | MySQL | Networking Fundamentals  
Technical Documentation & Process Automation  
QA/QC | Change Management | RFIs | RFQs | Specifications Review  
Stakeholder Liaison | Client Reporting | Team Leadership  
Microsoft Office | SharePoint | Azure Dev Environment (Fundamentals)

### Professional Experience

#### Senior Construction Inspector

Toronto Transit Commission (TTC) – Toronto, ON | 2023 – Present

- Overseeing field inspections and technical coordination for the \$200M Islington Station Redevelopment Project.
- Reviewing design documentation, verifying compliance with technical specifications, and managing inspection records digitally.
- Collaborating with design and contractor teams (AECOM, Kenaidan, etc.) using Microsoft Teams, SharePoint, and Power Apps.
- Tracking RFIs, RFQs, and change orders electronically for project transparency and traceability.
- Supporting digital transformation initiatives, including electronic inspection logs, data archiving, and process automation.

#### Site Supervisor / Junior Project Manager

Baycrest Project & Construction Management – North York, ON | 2022 – 2023

- Managed field operations for multiple commercial projects while assisting in budget tracking and documentation control.
- Coordinated with contractors and consultants to align construction progress with engineering plans and schedules.

- Monitored site safety, materials, and quality control; produced inspection reports using MS Excel and project management software.
- Supported system migration of project records to cloud-based document management tools.

### Municipal Site Supervisor

Rafat General Contractor – Bolton, ON | 2014 – 2022

- Led daily municipal infrastructure work, including road maintenance, water mains, and underground services.
- Implemented and monitored traffic management plans (Ontario Traffic Manual Book 7).
- Managed material scheduling, resource allocation, and inspection coordination with city engineers.
- Prepared and reviewed Proposed Change Order Requests (PCORs) and Pre-Start Inspections (PSIs).
- Conducted digital progress tracking and coordinated city-wide reporting.

### **Software & Systems Development**

Mohawk College – Computer Systems Technician (Software Support) | 2023 – Present

- Developing web applications and software tools combining front-end and back-end technologies.
- Building and styling interactive web applications using HTML, CSS, JavaScript, and PHP.
- Implementing database systems with MySQL and relational design principles.
- Creating structured software with Java and C# (.NET) for enterprise-grade solutions.
- Developing responsive interfaces (UI/UX) and single-page applications.
- Managing data structures, algorithms, and server-side logic for optimized performance.
- Applying software testing, quality assurance, and security fundamentals.
- Designing and documenting systems using UML, system analysis, and process flow diagrams.
- Working in team-based development projects with GitHub version control and Agile practices.

### **Education**

Bachelor of Civil Engineering – York University (2016 – 2020)

Diploma in Software Development & Systems Support – Mohawk College (2023 – Present)

### **Certifications**

Project Management Professional (PMP®) – PMI

WHMIS, CPR, Working at Heights, IHSA Supervisor

Security License (Ontario)

### **Additional Information**

Experienced with hybrid roles bridging engineering, technology, and digital systems.

Strong interest in software development, automation, and data integration for construction and operations management.

Eligible to work across Canada with valid driver's license and security clearance.
